

Sanyo Trading Europe GmbH to Exhibit at Data Centre World Frankfurt 2026

Sanyo Trading Europe GmbH, a subsidiary of Sanyo Trading Co., Ltd. ,is pleased to announce that it will exhibit at Data Centre World Frankfurt 2026, taking place on May 6–7, 2026 at Messe Frankfurt in Frankfurt, Germany. Data Centre World Frankfurt is one of the co-located events within Tech Show Frankfurt 2026, which brings together professionals across data centres, cloud, AI, cybersecurity, and digital infrastructure.

At our booth, we will showcase a broad range of cable solutions, including SWCC SICONEX, TOTOKU high-performance coaxial cables and cooling cables. Through this product lineup, we aim to address a wide variety of customer needs, from power-related applications to advanced high-performance connectivity requirements.

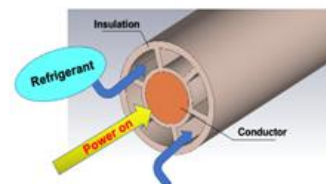

| Products

SICONEX

Coaxial cables

Cooling cables

By exhibiting products that support both power infrastructure and high-performance signal transmission, we look forward to engaging with a broad spectrum of visitors and creating new business opportunities with customers and partners from various industries.

We warmly invite all attendees to visit our booth and discover how our products and technologies can support their business needs.

Data Centre World Frankfurt
