

## Exhibiting at ANGA COM 2026

Sanyo Trading Europe GmbH, a subsidiary of Sanyo Trading Co., Ltd., is pleased to announce that it will exhibit at ANGA COM 2026, taking place on May 19–21, 2026, in Cologne, Germany. ANGA COM is Europe’s leading business platform for Broadband, Media and Connectivity, bringing together network operators, vendors, and content providers from across the industry.

At our booth, we will showcase a broad range of cable solutions, including SWCC optical fiber, TOTOKU high-performance coaxial cables, and cooling cables. Through this product lineup, we aim to address a wide variety of customer needs, from power-related applications to advanced high-performance connectivity requirements.

### | Products

**Optical fiber**

**Coaxial cables**

**Cooling cables**

By exhibiting products that support both power infrastructure and high-performance signal transmission, we look forward to engaging with a broad spectrum of visitors and creating new business opportunities with customers and partners from various industries.

We warmly invite all attendees to visit our booth and discover how our products and technologies can support their business needs.
