

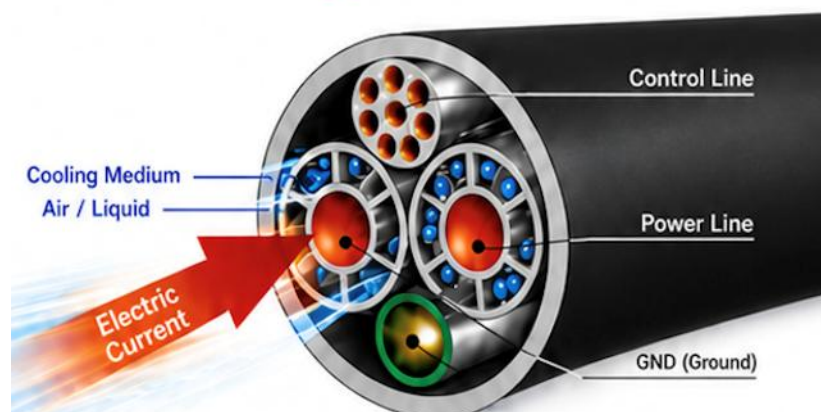

## Exhibiting at Power2Drive Europe 2026

Sanyo Trading Europe GmbH, a subsidiary of Sanyo Trading Co., Ltd., is pleased to announce that it will exhibit at Power2Drive Europe 2026, taking place on June 23–25, 2026, in Munich, Germany. Power2Drive Europe 2026 is part of The smarter E Europe, Europe's largest alliance of exhibitions for the energy industry, focusing on the integration of electric vehicles, smart charging infrastructure, and renewable energy.

At our booth, we will showcase a broad range of cable solutions, including SWCC/TOTOKU Cooling power cables for EV battery chargers, SWCC wireless charging coils, flat wires for motors/inverters, TOTOKU Triple Insulated winding wire and high-performance coaxial cables.

Through this product lineup, we aim to address a wide variety of customer needs, from power-related applications to advanced high-performance connectivity requirements.

### | Products

### Cooling cables

At our booth, we will present our latest products and solutions related to e-mobility, charging infrastructure, and next-generation energy applications. We look forward to welcoming customers, partners, and industry professionals to discuss new opportunities and future collaborations.

We warmly invite all attendees to visit our booth and discover how our products and technologies can support their business needs.

Power2Drive Europe 2026
